

BRODA[®] SEATING

Where Comfort is Essential

VANGUARD
ELITE

Bariatric Tilt Recliner

Comfort, Durability, Safety, and Function – Up to 500 lbs

Available in 26" 28" and 30" seat widths

Upgraded vinyl seat and back covers and IV pole shown

The Broda Vanguard Elite addresses the unique needs of Bariatric patients and caregivers alike.

- 30° of infinitely adjustable seat tilt (operated by foot pump) **helps reduce falls and aids in comfort.**
- 10° of infinitely adjustable anterior tilt (operated by foot pump) and adjustable, removable stand-assist grips **facilitate sit to stand.**
- 45° of infinitely adjustable back recline allows improved chest expansion for **better breathing** and assists with **postural support.**
- Swing away removable arms allow for **patient access** as well as **facilitating transfers.**
- 6" front swivel casters and 8" rear multi-directional casters offer ease of **maneuverability in tight spaces** and all wheel braking for safety. Rear casters offer one-step directional lock to **prevent lateral drifting.**
- Optional lower back concavity **accommodates patient's gluteal shelf.**
- Adjustable seating dimensions, legrest length and arm height **accommodate various patients.**

Excellent for Safe Patient Handling

Easy to use manual foot pump operates posterior and anterior seat tilt.
(Located on both sides of chair)

Reduces lifting force required by caregivers
