

BRODA[®]

Comfort is Essential

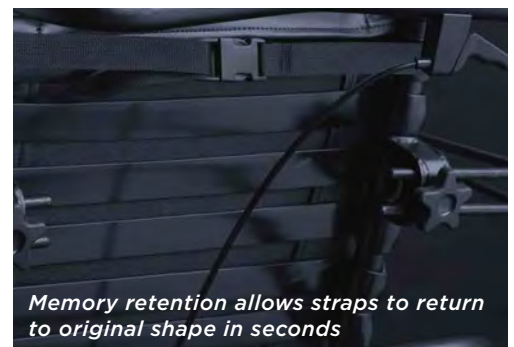

WHY BRODA?

BRODA's proprietary **Comfort Tension Seating®** system conforms to the body, providing enhanced pressure redistribution and long term seating comfort. The CTS strapping technology aids in maintaining skin integrity as it creates improved air flow resulting in decreased heat and moisture build up.

Simply stated, BRODA's innovative design helps reduce the cost and risk associated with skin breakdown.

"We have not had any skin breakdown with our residents in the Broda Tilt Recliner chairs since we started using them four years ago."

Jaclyn A.
OTR/L, Director of Occupational Therapy
New Hartford, NY

LEGENDARY DURABILITY AND DESIGN THAT ELEVATES CARE

BRODA chairs go beyond corrective positioning to provide improved independence and quality of life. With the industry's most effective combinations of tilt and recline, BRODA chairs are the unrivaled solution for your next clinical application.

PATIENT BENEFITS:

- Lower center of gravity provides industry leading stability and safety
- Increases sitting tolerance with improved endurance for participation in daily activities
- Models with up to 45° of tilt and of 90° recline provide effective pressure redistribution
- Posterior tilt effectively opens the diaphragm improving digestion, oxygenation, and organ function
- Infinitely adjustable positioning cradles and soothes patient to reduce agitation and provide contentment
- Front-pivot seat tilt allows patients to maintain a forward line of sight enhancing socialization and engagement

CAREGIVER AND FACILITY BENEFITS:

- Optimum safety and functionality withstands severe agitation and involuntary movements
- Lay flat feature facilitates supine transfers reducing the risks associated with falls and injuries
- Tilt and recline provide ease of use for frequent re-positioning, helping improve patient outcomes
- Proper seating alignment decreases patient fatigue and postural deviations reducing the use of restraints
- Enhanced positioning and innovative features allow for fewer transfers promoting safe patient handling
- Quality construction provides superior durability reducing equipment, maintenance and replacement costs

POSITIONING CHAIRS

"The Broda chair has been a blessing for my father, his caregivers and my family. The Broda chair improves his quality of life and I can't imagine him not being in it over the past few years. We are fortunate that the VA will fund Broda chairs for Veterans like him who need them".

Kent Potter

THE SYNTHESIS OF COMFORT, FUNCTIONALITY AND STYLE

The Synthesis Tilt Recliner builds upon BRODA's legacy of comfort and reliability to provide the fullest range of positioning features in a more progressive design.

Updated frame finish and upholstery options to meet a wide variety of preferences.

Progressive design and styling to fit the facilities of today and tomorrow.

New Individualized upper lateral supports to accommodate a variety of unique patient needs.

PRODUCT FEATURES

DEGREES OF TILT	40°
DEGREES OF RECLINE	90°
MAG WHEEL OPTION	REAR OR MID MOUNT
WEIGHT CAPACITY	350 LBS

COMFORT AND
SAFETY ON THE GO

Providing the comfort and functionality BRODA is known for, the Synthesis V4 WC-19 mobile transport chair supports patients through multiple levels of care.

SHOWN WITH STANDARD REAR CASTERS AND UPGRADED TWIN WHEEL FRONT CASTERS

PRODUCT FEATURES

DEGREES OF TILT	40° (13° DURING TRANSPORT)
DEGREES OF RECLINE	90°
MAG WHEEL OPTION	REAR OR MID MOUNT
WEIGHT CAPACITY	350 LBS

Reduces the cost of non-emergency transport.

WC-19 Compliant in both Caster and Mag wheel configurations.

Front and rear securements eliminate the need for additional transport equipment.

UNPARALLELED VERSATILITY,
POSITIONING AND FUNCTION

Enhanced positioning and innovative features provide exceptional comfort. Superior durability accommodates use in multiple care settings.

AVAILABLE
IN SELECT
AREAS

Offers outstanding flexibility and options to accommodate various needs (Rear Mag Wheel Option Shown).

Accommodates safe patient handling and changing of incontinence products.

Provides ease of maneuverability to accommodate various activities (Middle Mag Wheel Option Shown).

PRODUCT FEATURES

DEGREES OF TILT	40°
DEGREES OF RECLINE	90°
MAG WHEEL OPTION	REAR OR MID MOUNT
WEIGHT CAPACITY	350 LBS
REIMBURSEMENT CODE	WMA5B-020, WMA5B-010

ENHANCED POSITIONING WITH REFINED FEATURES

The Midline offers full tilt and recline with key features that accommodate varying levels of care.

Accommodates changing of incontinence products improving safe patient handling.

Supports patients through multiple levels of care with the adjustable seat height and removable leg rest to take the Midline from Mobility to Full Positioning.

Posterior tilt provides enhanced positioning and improved comfort, helping reduce the need for transfers.

PRODUCT FEATURES

DEGREES OF TILT	38°
DEGREES OF RECLINE	90°
MAG WHEEL OPTION	FRONT OR REAR MOUNT
WEIGHT CAPACITY	350 LBS

ESSENTIAL POSITIONING AND PEACE OF MIND

Offering basic positioning, pressure redistribution and key features for moderate levels of care. The Centric 30 VT is an ideal facility chair.

Provides essential comfort, posture and safety.

Accommodates hip flexion limitations with semi-recline.

Accommodates knee contractures with optional contracture sling.

PRODUCT FEATURES

DEGREES OF TILT	25°
DEGREES OF RECLINE	45°
MAG WHEEL OPTION	FRONT OR REAR MOUNT
WEIGHT CAPACITY	250 LBS
REIMBURSEMENT CODE	E1031

MORE THAN JUST A WIDER SEAT, BARIATRIC CARE REDEFINED

Bariatric care is elevated to a new level with the Vanguard Tilt Recliner. Designed specifically for the unique needs of bariatric individuals.

Improves patient support and dignity with concave back for gluteal shelf.

Posterior tilt enhances posture, improving digestion, respiratory function and patient endurance.

Accommodates bariatric safe patient handling and no-lift programs (with manual foot pump for tilt in space).

PRODUCT FEATURES

DEGREES OF TILT	30° POSTERIOR / 10° ANTERIOR
DEGREES OF RECLINE	45°
MAG WHEEL OPTION	N/A
WEIGHT CAPACITY	600 LBS

ENHANCED POSITIONING AND VERSATILITY IN HARMONY WITH COMFORT TENSION SEATING

The Additional Positioning Package (app) is an easy to use low maintenance seating system designed to optimize individual comfort, immersion and alignment by working in harmony with Comfort Tension Seating®.

Skeletal support and immersion provides enhanced pressure redistribution and comfort.

Ergonomic seating position reduces musculoskeletal strain improving postural stability.

Enhanced contouring improves posture decreasing pain and fatigue.

PADDING OPTIONS (POSITIONING AND MOBILITY CHAIRS*)

CONTOURED SEAT CUSHION WITH STABLE BASE AND REMOVABLE COVER

CONTOURED BACK CUSHION WITH MILD LUMBAR AND LATERAL TORSO SUPPORT

HEAD SUPPORT WITH ELEVATED EDGES IMPROVES POSITIONING AND STABILITY

INDEPENDENTLY ADJUSTABLE PILLOW WITH SOFT FOAM FOR SUPERIOR COMFORT

SHOULDER BOLSTERS ENHANCE POSTURAL STABILITY (FOR USE WITH BRODA WING FRAME)

CALF SUPPORT WITH ELEVATED EDGES IMPROVES POSITIONING AND STABILITY

FOOT SUPPORT WITH NON-SKID SURFACE AND ELEVATED EDGES IMPROVES STABILITY

* Available on Synthesis, Elite, Midline, Centric, Sashay and Latitude chairs
FOR MORE INFORMATION SEE APPENDIX OR BRODASEATING.COM

MOBILITY CHAIRS

"Prior to the Broda chair, we had tried numerous positioning devices for the resident, which were ineffective. She had a tendency to lean forwards and to one side. Once using the Broda Chair, the resident's posture immediately improved. She, herself, was very thankful because she was "so comfortable". The staff couldn't believe the results. Besides this resident sitting in proper alignment, she could still self propel with her feet."

*Linda P., Restorative Coordinator
RN
Joliet, IL*

ENHANCED MOBILITY
AND FREEDOM

Ergonomically designed, the Sashay Pedal Chair enables patients to self-propel with their hands or feet to increase mobility and independence.

Front pivot seat tilt enhances visual orientation and encourages self-mobility with proper foot on floor positioning.

Posterior tilt improves posture, redistributes pressure and aids in fall prevention.

Optional front mount mag wheels facilitate hand propulsion allowing patients to socialize and engage in their surroundings.

PRODUCT FEATURES

DEGREES OF TILT	18°
DEGREES OF RECLINE	N/A
MAG WHEEL OPTION	FRONT OR REAR MOUNT
WEIGHT CAPACITY	350 LBS
REIMBURSEMENT CODE	E1031, WMA5B-005

ENHANCED MOBILITY AND FREEDOM FOR MEMORY CARE

Ergonomically designed, the Latitude Pedal Rocker enables patients to gently rock and self-propel with their hands or feet to increase mobility and independence.

SHOWN WITH OPTIONAL MAG WHEELS

Up to 33° of tilt with engagement of caregiver activated rocking.

Gentle rocking motion helps calm and soothe agitation providing contentment for improved quality of life.

Accommodates varying levels of patient weight and strength with adjustable rocking tension dial.

REHAB MOBILITY CHAIRS

"BRODA products make it easier for caregivers to provide optimal care with less stress on the client and the caregiver. For example, easier transfers, easier re-positioning, less maintenance, and easier mobility."

Carole Purdue
MS/OTR.

SIMPLIFIED DURABILITY AND VERSATILITY
FOR IMPROVED REHAB MOBILITY CARE

The Comfort-Tilt Model 587 provides exceptional durability, positioning and function for complex rehab needs.

Maintains patient comfort with smooth, effortless tilt.

Optimizes mobility and stability for increased patient safety and function.

Provides a range of simple adjustments to accommodate a wide variety of needs.

DEGREES OF RECLINE	N/A
MAG WHEEL OPTION	REAR MOUNT
WEIGHT CAPACITY	250 LBS
REIMBURSEMENT CODE	E1161, WMA5B-025

GLIDER & GERIATRIC CHAIRS

"Our gliders are always disappearing out of our common areas and end up in our patients rooms. We don't know how they get there, but they love them and prefer sitting in them more than anything else. One patient with a back injury told us this was the only chair he could sit comfortably in. He wanted to take it home with him after his rehabilitation was complete."

*Josiah D.
Administrator
Pocatello, ID*

NURTURING CONTENTMENT AND INDEPENDENCE

A stationary chair, the Tranquille Auto Locking Glider provides gentle gliding for use in patient rooms, common areas and memory care.

Gentle gliding motion helps calm and soothe agitation.

Auto-locking feature aids in patient safety and fall prevention.

Gliding motion provides stimulation for active patients, helping reduce the need to wander.

SHOWER CHAIRS

"The BRODA CS 385 meets our patient's needs. He indicates he feels safe and he is able to participate in his own care each morning. He is safe at all times while in the chair, and the caregivers are safe at all times while providing his care. All staff report being pleased with the commode and find it much easier to assist him".

*Pam
Director of Nursing*

ENHANCED DIGNITY AND WELL-BEING IN HYGIENE CARE

Superior comfort and versatility, combined with durable stainless steel frame and components, make the CS 385 ideal for shower and commode environments.

Provides positioning for safe and thorough bathing, including back recline for washing hair.

Provides anterior tilt and ease of patient care with exceptional maneuverability for positioning over most toilets.

Enhances patient comfort and support with full elevating legrest.

PRODUCT FEATURES

DEGREES OF TILT	12° POSTERIOR, 10° ANTERIOR
DEGREES OF RECLINE	67°
MAG WHEEL OPTION	N/A
WEIGHT CAPACITY	400 LBS

**BARIATRIC HYGIENE CARE
IN A CLASS ALL ITS OWN**

The B385 combines industry leading functionality with BRODA's superior positioning enhancing patient comfort, care and dignity.

Anterior tilt facilitates patient transfers and ease of patient care with exceptional maneuverability.

Accommodates positioning needs for safe and thorough bathing and access to difficult to reach areas.

Improves patient support and dignity (Concave back accommodates gluteal shelf).
